("Law"), and the regulations promulgated thereunder, N.J.A.C. 13:3-1.1 et seq. ("Regulations"). This approval is based upon information supplied by the applicant at the time of application for certification. Cracky Crab is a game where a player competes against the computer. The player must hit as many of the crabs that come from the sides with a mallet to make crabs jump back into their holes, before the time allotted expires. Each hit registered will cause the game to increase in speed, increasing the difficulty. Tickets are dispensed as the score increases.

This certification is conditioned upon the following:

- 1.) The maximum price to play shall not exceed the values set forth in N.J.A.C. 13:3-3.4.
- 2.) Payout must occur immediately in the form of tokens or tickets.
- 3.) Game shall be installed and maintained according to manufacturer specifications.
- 4.) Game Menu selections shall remain at factory settings.
- 5.) Game shall be clean and free of debris.

This certification is not a license to operate the captioned gambling device. The device may only be operated in a location specifically approved for the operation of amusement games pursuant to the Law and Regulations.

The Commission reserves the right to suspend, revoke or modify this certification upon notice to the manufacturer and/or applicant.
